

Dear Partner,

Cisco has announced list price changes across select hardware and software portfolios, effective 1 August 2026. Select CX Services price lists are also affected.

To help you prepare for these changes and minimise any disruption to your business, we recommend reviewing any open opportunities before the new pricing comes into effect.

- Review your open quotes and registered deals against the new pricing effective 1 August 2026.
- Place your order before 1 August 2026 to lock in the current pricing.
- Discuss any in-flight opportunities that require attention with your Ingram Micro account manager before 1 August. If a strategic deal requires escalation, please raise it before the pricing changes take effect.

Please review the updated price list to understand how these changes may impact your current and future opportunities.

If you have any questions or need assistance, please contact your Ingram Micro account team. We are here to support you throughout the process.

Thanks for your continued partnership.

Regards,
The Ingram Micro Team
